CELEBRATING A CENTURY OF INNOVATION

LUXAFLEX® WINDOW COVERINGS

2024

Hunter Douglas celebrates 70 years since the Luxaflex Window Fashions brand was launched in Australia.

2023

PowerView Gen 3 is launched. Built on the reliable Bluetooth protocol, PowerView Gen 3 features real-time two way communication between the shades and the system.

2019

Luxaflex® Evo Awnings range expands with the launch of the patented Evo MagnaTrack® Awning. Australia's first magnetic retention system and only self-correcting straight drop awning on the Australian market.

2018

Hunter Douglas, the company behind the Luxaflex brand, goes green with the largest solar panel installation of its kind in the world, installed on the roof of its warehouse at its Australian manufacturing site in Sydney.

2016

PowerView® Home Automation is exclusively launched in the Luxaflex Australia range, the most stylish and innovative residential home automation system on the market.

2012

Launch of the Australian designed and made Luxaflex® Evo Awning. Designed and tested for Australian conditions.

2010

Innovation at its finest with the launch of the patented Luxaflex® Pirouette® Shadings.

2008

Luxaflex® Duette® Shades expands with the launch of the patented Duette® Architella® Shades, the best insulating window covering on the market with the unique cell-within-a-cell construction.

1997

Luxaflex® Luminette® Privacy Sheers launch with its patented design, yet another addition to the Luxaflex exclusive softshades range, combining the best of a sheer curtain and blind in one stunning window covering.

1994

Luxaflex® Silhouette® Shadings launch with the innovative S-Vane raising the industry bar for versatility, light control and style.

1987

Luxaflex® Duette® Shades launch in Australia. Innovation is in the DNA of the Luxaflex brand and this first honeycomb blind becomes the founding product in the exclusive patented softshades collection.

1986

Hunter Douglas, the company behind the Luxaflex brand, purchases Sunweave Textiles and moves the plant to Rydalmere where it remains today creating many of the fabrics used in the Luxaflex Roller Blind and Canvas Awning ranges.

1960s & 70s

The Luxaflex brand achieves market dominance through the popularity of the Aluminium Venetian Blind. The range also expands to include products such as aluminium awnings, fly screens, insect doors and cladding.

1954

Hunter Douglas launches its Luxaflex Window Fashions brand in Australia, introducing Australians to the Dutch heritage brand and the range of exceptionally durable and stylish window covering solutions.

1953

The Hunter Douglas Group expands its global dominance by moving into Australia and establishing its site in the Sydney suburb of Rydalmere where it still stands today.

1946

Henry Sonnenberg established a joint venture with Joe Hunter, which developed new technology to design the modern aluminium venetian blind. This led to the establishment of the worldwide Hunter Douglas Group which remains the market leading group of companies today.

1933

Henry Sonnenberg moved the company to Rotterdam in the Netherlands to escape the impending war and began the company's Dutch heritage. This led to the establishment of the Luxaflex Window Fashions brand.

1919

Henry Sonnenberg founded the company as a machine tooling business manufacturing in Dusseldorf, Germany.

ABOUT

LUXAFLEX® WINDOW COVERINGS

ABOUT LUXAFLEX® WINDOW FASHIONS

At the forefront of innovation and technical excellence, the Luxaflex brand offers many exclusive patented products and operating systems. With so many options on offer, we provide a specialist consultation to ensure your individual needs are met.

Hand crafted quality

Our patented designs are engineered and thoroughly tested for the harsh Australian climate, while our individually crafted products are made to specific requirements from the very best materials. This meticulous attention to detail with every made-to-measure window covering is what makes the Luxaflex difference.

Innovation is our heritage

Luxaflex Window Fashions has been a leading brand in Australian homes since 1954. With a Dutch heritage, design and innovation are at the core of the brand. Since the invention of the Aluminium Venetian Blind, we have continued to expand the Australian product range, combining the best of international and local innovations.

Style to light up your home

As well as its own unique aspect and position, every home also has its own distinct style. From regal Victorian to modern minimalist to the angular drama of a city high rise, the right designs need to fulfil both aesthetic and practical demands. For over 65 years we have made it our passion to understand the many elements of window styling so you can enjoy beautiful light in every room with inspired and elegant solutions for your home.

Australian Made

Most of our product range is made-to-measure in our Australian factories to our specific Luxaflex premium quality standards using specialist equipment. Many of our raw materials are either made in our own Australian, North American or European factories or sourced from local or international suppliers to meet our high quality standards.

Warranty with peace of mind

You have complete peace of mind when investing in quality Luxaflex Window Fashions. We stand behind our products by offering a 5 Year Manufacturer's Warranty¹.

CHOOSING THE RIGHT SOLUTION FOR YOUR HOME

Light control

Light control is the number one consideration for most homeowners in choosing a window covering. Whether to darken a bedroom, reduce glare in a living room, or let natural light in to brighten a room, we offer different opacities for your window covering to filter or deflect sunlight depending on your needs.

Sheer

Sheer softly filters the light and allows for view-through.

Translucent

Translucent screens out harsh light whilst still providing daytime privacy.

Blockout

Blockout gives you the ultimate in privacy and light control by completely blocking out light through the window covering.

Insulation & energy efficiency

One of the greatest benefits of Luxaflex® Window Fashions is the ability to control the room's temperature. Insulation and energy efficiency is achieved through the selection of the right blind or awning. A well insulated window can reduce energy consumption as it relies less on air conditioning/heating to control the temperature of a room. Save up to 43%² on your heating costs with Luxaflex® Duette® Architella® Shades through winter and save up to 60%³ on your cooling costs through summer using a Luxaflex Evo Awning. Combine external awnings and internal blinds for the best result year round.

Insulation with Duette® Architella® Shades

The unique honeycomb structure of Luxaflex Duette Architella Shades traps the heat and prevents heat gain and loss.

Summer

Winter

Easy maintenance

With such an extensive range, there are many Luxaflex® products that are effortless to care for. The Softshades Collection is made from polyester which is naturally anti-static, repelling dust. The Fabric Collection features selected fabrics treated with Duraguard® Fabric Protector and Sanitized® Antimicrobial Protection. See page 50 for more details. Luxaflex® PolySatin® Shutters can be easily removed and hosed outside.

Privacy

Maintaining privacy day and night is an important consideration for many homeowners. Privacy can be achieved with louvred products where you can angle the vanes to your desired position. We also have a large range of dual function products to help you achieve privacy whilst keeping your view such as Luxaflex® Dual Roller Blinds, Luxaflex® Duette® Duo-Lite Shades and many others that our Luxaflex Consultants can recommend to suit your home.

Child safety

We understand the importance of safety in the home, especially for those with young children and pets. That's why all Luxaflex Window Fashions are designed with safety in mind and are compliant with the latest ACCC Child Safety Regulations to ensure they are safe for the occupants and visitors to the home.

Operating methods

Home automation

Many of our motorised blinds, shades and awnings provide the convenience of remote control technology through hard-wired or battery systems, including integration into 'Smart Home' automation systems. This allows control of your window coverings at the touch of a button, voice control, timer or sensor. In addition to providing the ultimate choice in child safety and convenience, sensors can ensure the windows are shaded to provide optimal thermal efficiency in your home throughout the day.

Manual solutions

If you would rather take the reins of your window coverings yourself, we offer an extensive range of manual solutions that offer easy and effortless control. All of our control solutions are child and pet safe and no matter which option you choose, we guarantee smooth, precise operation for years to come.

PRODUCT SERIES

LUXAFLEX® WINDOW COVERINGS

WHY BUY FROM A LUXAFLEX® WINDOW FASHIONS GALLERY?

Your guarantee of total satisfaction

We are committed to ensuring you have a satisfying experience and are 100% happy with your selection of internal window covering. If you are not happy with your choice, we will exchange it for another Luxaflex product.

We simply ask you to live with your choice for 20 days, then you have 20 days to make a claim, for a one-time replacement.⁴ Exclusively available in Luxaflex Window Fashions Galleries.

Reviews

We are proud to say that we have a 4.8 star rating on Trustpilot which is one of the most trusted and widely used review platforms in Australia. We encourage you to read what our customers say about us before making your purchase.

Earn Qantas Points⁵ with Luxaflex

Qantas Frequent Flyer members can earn 1 Qantas Point for every \$1 spent across the entire Luxaflex Window Fashions product range.

Visit luxaflex.com.au/qantas for more information.

Personal service

We understand selecting the right window coverings solution can be difficult with so many choices in styles, colours, operating systems and opacities available to you. Our Gallery Showrooms provide the ultimate experience in window fashions shopping to make it simple, easy and fun from your initial enquiry through to the after-sales service.

Expert advice

We will guide you through the selection of the right window covering, colour, style and operating system to meet your personalised needs for your home.

Experience

The Luxaflex brand has been a household name in Australia since 1954. We know Australian homes and our entire range is engineered and thoroughly tested to meet the high quality standards of the brand as well as deliver high performance in our harsh Australian environment.

PRODUCT SERIES PROVIDING YOU A RANGE OF PRICE POINTS

Luxaflex® Window Fashions continue to evolve the Australian range of stunning window covering solutions for inside and outside your home with the Luxaflex Product Series. Each product type in this brochure offers styles, fabrics and finishes from the Designer, Classic and Living Series allowing you to select from the price point within product ranges to meet your individual budget. The broader range ensures Australian homeowners now have even more choice from the brand they have known and trusted since 1954.

The Designer Series is our exclusive top-of-the-range collection providing unique features and premium solutions.

The Classic Series is our core range of Luxaflex products that Australian homeowners have loved for generations.

The Living Series is our refreshingly affordable range of blinds customised to suit your lifestyle.

OPERATING SYSTEMS

LUXAFLEX® WINDOW COVERINGS

INNOVATIVE OPERATING SYSTEMS

PowerView® Automation is an innovative wireless operating system which automatically controls and powers a wide range of Luxaflex internal window covering products creating the perfect room ambiance morning, noon and night.

PowerView allows you to quickly create customised schedules that control all the shades in your home to operate together or in any combination you desire. Easily schedule your shades to move automatically so you don't have to. PowerView also allows you to easily link to sunrise and sunset times, to control solar energy throughout the seasons or wake with the sun.

POWerview AUTOMATION FEATURES & BENEFITS

Control your shades via the PowerView App, Pebble® Remote or by voice control through Apple HomeKit®, Google® Assistant and Amazon® Alexa® integration.

Ultraglide®

A cord-less click and walk away system using a retractable wand mechanism to ensure the wand remains a consistent length when raising or lowering. The system offers enhanced child and pet safety and sleek interior finish.

EasyRise

An intuitive continuous cord loop operating system that you can easily raise, adjust and lower by simply pulling on the cord. The cord loop returns back to the sleek headrail during operation, creating an endless cord.

Vertiglide

A cordless side-to-side operation ideal for wide applications, sliding doors or as a room divider. Vertiglide can be operated manually by hand using a rail handle.

LiteRise

An easy and completely cordless operating system, LiteRise shades feature a contoured bottom rail handle, for user comfortability for raising and lowering the shade by hand.

SOFTSHADES COLLECTION

The Luxaflex® Softshades Collection captures the essence of premium styling for your windows with the most comprehensive and unique collection of soft window fashions. The collection provides the entire house solution by coordinating complementary tones and fabrics across different windows and doorways in any room.

SOFTSHADES COLLECTION

LUXAFLEX® WINDOW COVERINGS

LUXAFLEX®

LUXAFLEX® WINDOW COVERINGS

LUXAFLEX®

FABRIC BENEFITS

Easy to clean & maintain

Many Luxaflex fabrics are treated with Duraguard® Fabric Protector, which effectively repels most stain causing agents with its proven, water based, preventative, formula. This fabric protection is totally invisible and has high levels of stain repellance. It makes cleaning and maintaining the fabric much easier.

Reduced allergens for a healthy home

Selected Luxaflex fabrics are treated with Sanitized® hygiene function effectively reducing the development of bacteria, odour and mildew. Free of harmful substances, Sanitized hygiene is recommended by institutions for allergy sufferers.

Fade resistant

Luxaflex fabrics undergo stringent testing to ensure they resist fading and maintain their original appearance for many years. All Luxaflex fabrics have been tested for colour or light fastness on a scale from 1 to 8, where 8 is most fade resistant from exposure to light. The Luxaflex quality standard is 5 and above. Many other blind and curtain fabrics available in Australia do not pass these tests resulting in a shorter product life.

Fire retardant

All Luxaflex fabrics are suitable for residential applications. Many have been designed specifically to inhibit the spread of flames and smoke in the event of a fire. These fabrics are independently tested in accordance with the Australian Standard.

OEKO-TEX® Certification

STANDARD 100 by OEKO-TEX® is one of the world's best-known labels for textiles tested for harmful substances. Many Luxaflex fabrics meet the certification requirements set by Oeko-Tex for the exclusion of harmful substances.

SHUTTERS & VENETIANS COLLECTION

The Luxaflex® Shutters & Venetians Collection combines timeless grandeur with both practical and durable design. From the natural beauty of rich solid timber to meticulously engineered synthetic timber products, there is an option to suit the individual requirements of every room and home.

SHUTTERS & VENETIANS COLLECTION

LUXAFLEX® WINDOW COVERINGS

LUXAFLEX®

POLYSATIN® SHUTTERS

Luxaflex PolySatin Shutters are the modern alternative to traditional wooden shutters and are virtually maintenance free. Backed by a 20 year warranty¹, they are made from an advanced polyresin compound bringing elegance to any interior with their soft, matte lustre providing the look of a freshly painted shutter which will last for years to come.

- A** Non-motorised shutters can simply be washed with water to remove dust or marks without affecting the product
- B** Water resistant, the shutters will not blister, peel, flake, corrode or fade – ideal for high humidity areas such as kitchens and bathrooms

SHUTTERS & VENETIANS COLLECTION

LUXAFLEX® WINDOW COVERINGS

LUXAFLEX®

EVERWOODS COLLECTION

The Luxaflex Everwoods Collection is a practical alternative to traditional timber blinds. Made from engineered materials they have the classic look of timber blinds whilst being impervious to moisture. This makes them perfect for high humidity areas such as bathrooms, laundries and kitchens.

Aluminium slats for
enhanced durability

LUXAFLEX®

ALUMINIUM VENETIANS

Luxaflex Aluminium Venetians provide a timeless design that suits many decorating styles and are highly functional for both heat and privacy control. Featuring a superior coating, the Venetian slats are resistant to abrasion, peeling, scratching and discoloration for low-maintenance and longevity.

LUXAFLEX®

COUNTRY WOODS® VENETIANS

Luxaflex Country Woods Venetians are the perfect choice for the classic look and feel of natural timber. Fashioned to create a warm and inviting home, they're available in a variety of colours and slat sizes.

TIMELESS COLLECTION

LUXAFLEX® WINDOW COVERINGS

Range of colours and fabric choices including canvas, acrylic and Everscreen external screen fabric

LUXAFLEX®

STANDARD LOCK ARM AWNINGS

Luxaflex Lock Arm Awnings are an affordable shading system for homeowners on a budget. The fabric moves up and down the guide rods on arms at a fixed projection.

LUXAFLEX HAS YOUR OUTDOOR ENVIRONMENT COVERED

Our awnings fit spaces of all shapes and sizes and are suited for a range of exterior settings, from terraces and patios to large entertaining areas.

TIMELESS COLLECTION

LUXAFLEX® WINDOW COVERINGS

LUXAFLEX®

FIXED METAL AWNINGS

Luxaflex Fixed Metal Awnings provide perfect shading to patios, verandahs, external windows and doors. They can span unlimited widths and project up to 3 metres depending on the style you choose. Available in a range of colours, design your own pattern with our panel selector.

A Luxaflex® Caribbean® Awnings shown with optional sides are the most decorative of the fixed range

B Luxaflex Kingston Metal Awnings shown with optional sides not only reflect the heat and light, but they have the added benefit of being fully waterproof

C Luxaflex Bahama Awnings feature wide horizontal panels

D Optional post support to create a patio

TIMELESS COLLECTION

LUXAFLEX® WINDOW COVERINGS

LUXAFLEX®

CANOPY AWNINGS

Luxaflex Canopy Awnings are a fixed awning and designed to be long lasting and low maintenance. They are best situated over windows, doors or walkways and are available in a number of different designs. Spans of up to 6 metres wide and drops up to 1.5 metres are available.

- A Wedge
- B Eliptical
- C Boulevard

TIMELESS COLLECTION

LUXAFLEX® WINDOW COVERINGS

LUXAFLEX®

LOUVRE AWNINGS

Luxaflex Louvre Awnings are extremely effective for providing privacy, light control and airflow for balconies and external windows. They are also exceptionally durable under the harshest Australian weather conditions. The under structure and rear of louvre panels are white to maintain a neutral appearance from inside.

A Fixed Trinidad: Deflect the sun's glare without sacrificing air flow, light or view

B Adjustable Trinidad: Provides maximum light, heat and privacy control by allowing you to manually adjust the angle of the louvres

TIMELESS COLLECTION

LUXAFLEX® WINDOW COVERINGS

LUXAFLEX®

STRAIGHT DROP AWNINGS

Luxaflex Straight Drop Awnings have a classic design and are able to provide shade and shelter from the outdoor elements. They are available in 3 styles and are suitable for enclosing a verandah, carport and outdoor living area.

- A Verandah Straight Drop:** A timeless awning that rolls from the bottom and uses cords to roll up the fabric. It requires straps and stirrups to hold the awning down.
- B Channel Roll Up:** A modern take on a classic straight drop awning that uses side channels to lock the bottom rail at the desired position.
- C Spring Straight Drop:** A traditional straight drop that is spring controlled. Straps and stirrups hold the awning down at your desired position as it is tensioned from the top roller.

TIMELESS COLLECTION

LUXAFLEX® WINDOW COVERINGS

LUXAFLEX®

SYSTEM 2000 AWNINGS

The Luxaflex System 2000 Awning is an award winning system that has been completely designed and manufactured in Australia. Having won the prestigious Australian Design Award on debut for its superior materials and ergonomic function, the System 2000 range of awnings is designed to be strong, robust and engineered to last in the toughest Australian environments.

A Lock Arm: System 2000 Lock Arm Awnings are incredibly simple to operate. Easy-to-use self-locking arms allow adjustment by hand or by a pull stick to bring the awning to the desired position.

B Pivot Arm: Luxaflex System 2000 Pivot Arm Awnings match perfectly with the Lock Arm Awning to achieve a coordinated look for the home. They can also be operated from inside the house making it the ideal choice for installations higher than ground level.

TIMELESS COLLECTION

The Luxaflex® Timeless Collection of Awnings feature styles that are classically elegant for a more traditional home. Featuring many fabric and metal styles, there is a selection for most outdoor applications.

EVO AWNINGS

LUXAFLEX® WINDOW COVERINGS

Modern styling with unobstructed view

Fabric disappears into bottom rail for seamless aesthetics

Standard crank, exterior control or motorised control

Optional headbox to protect the fabric when not in use

LUXAFLEX®

EVO CABLE AWNINGS

The Luxaflex Evo Cable Awning is a contemporary straight drop awning suited to applications where UV protection is required, with increased airflow behind the fabric or where side channels are not suitable. The cable guides are made of high tensile corrosion resistant 316 grade marine stainless steel, making them perfect for coastal applications.

LUXAFLEX®

EVO PIVOT ARM AWNINGS

Luxaflex Evo Pivot Arm Awnings project the fabric off the window or balcony with the arms and fabric forming a canopy that allows air to flow behind the awning. This allows the window to be open whilst the awning is projected to provide sun/UV protection as well as light and heat control. Coordinate with Evo Straight Drop styles for a cohesive appearance.

EVO AWNINGS

LUXAFLEX® WINDOW COVERINGS

LUXAFLEX®

EVO DROP AWNINGS

The Luxaflex Evo Drop Awning is a straight drop awning and provides a classic style to complement any home.

As the Evo Drop Awning does not use any guides, it is ideal for sun/UV protection as well as airflow where side channels are not suitable. Hold down straps or locking bolts ensure the awning is secured in very windy conditions.

LUXAFLEX®
EVO STC AWNINGS

A

The Luxaflex Evo STC (Side Tension Channel) Awning offers peak performance in adverse conditions. It is ideal for sun/UV protection, windy applications, safeguarding against insects as well as light and heat control.

The fabric is held between the side channels making this system perfect for enclosing courtyards, patios or balconies. Reduce glare while retaining your view with sunscreen fabric. Manual or motorised operating systems available.

LUXAFLEX®
EVO MAGNATRACK® AWNINGS

Engineered and tested in Australia to handle our diverse and unforgiving conditions - the Luxaflex Evo MagnaTrack Awning is the most technologically advanced awning in the market. The Evo MagnaTrack Awning harnesses the power of Rare Earth Neodymium Magnets within the side channels to hold the fabric in place providing a smooth flat finish with ultra wide spans and unparalleled strength.

The Luxaflex Evo MagnaTrack Awning (3.5 metres opening span width) has been independently tested to withstand wind pressures up to 185kph² by James Cook University's Cyclone Testing Station, making it Australia's strongest, wind tested, Straight Drop awning.

Australia's only self-correcting awning system
With our patented magnet technology, the Luxaflex Evo MagnaTrack Awning is the only straight drop awning system in Australia that has a self-correcting feature allowing the fabric skin to effortlessly return into the channel should it ever become dislodged - reducing costly service calls. The self-correcting feature can be done quickly and easily by using the awning's remote control.

Ultrawide spans with premium sunscreen fabric options
The Luxaflex Evo MagnaTrack Awning can accommodate widths up to 6.5 metres and drops of 4 metres and is exclusively available with our premium fibreglass fabric range – Luxaflex Spectra Sunscreen.

Save up to 60%³ on your home cooling costs
Awnings such as the Evo MagnaTrack Awning can also create substantial savings on a home's cooling bill. Considering that up to 87%⁴ of a home's heat gain in summer is through uncovered windows, external shading from Evo Awnings can reduce your home cooling energy costs by up to 60%³. When combined with Luxaflex Spectra Sunscreen's ability to eliminate up to 95%⁵ of heat from solar radiation, the Evo MagnaTrack Awning can bring you long term savings and help you feel comfortable all year round.

EVO AWNINGS

Luxaflex Evo Awnings are designed and engineered in Australia specifically for the Australian market, making it ideal for our unique climate conditions. A modern solution for any outdoor space, with easy operation and customisability.

FOLDING ARM AWNINGS

LUXAFLEX® WINDOW COVERINGS

LUXAFLEX®

SUNRAIN® AWNINGS

The exclusive Luxaflex Sunrain Awning provides protection from the elements, rain or shine. Designed and engineered in Germany, the Sunrain Awning offers a contemporary look with simple functionality to provide ease of use.

With its unique double pitch design, rain water runs off the waterproof PVC fabric and drains out both sides of the custom drainage front rail. It can withstand substantial wind forces when using the Telescopic Wind Protect System, which secures the front rail to removable posts. Operate via standard crank or optional motorised control with sun and wind sensors.

A,B & C The standard pitch angle is set to 5 degrees to allow water run off, additional pitch options range up to 15 degrees from square bar to middle stringer. This option allows you to determine pitch placement to best accommodate your sun control needs.

LUXAFLEX®

NORDIC ACCESS AWNINGS

The Luxaflex Nordic Access Awning is an open roller style awning featuring compact and concealed components. Covering areas of 5 metres wide and projections up to 3 metres, it is the ideal awning for any small area. Hood options are also available.

LUXAFLEX®

NORDIC CROSS OVER AWNINGS

The perfect solution for apartments, balconies and narrow terraces. The Luxaflex Nordic Cross Over Awning features cross over arms enabling a larger projection on a narrow width whilst providing the same outdoor shading as wider awnings. It features an optional roller valance to provide additional shading and span widths up to 4.6 metres with a projection of 4 metres.

NORDIC DYNAMIC AND ECLIPSE SEMI-CASSETTE AWNINGS

Nordic Dynamic Semi-Cassette Awning

The Luxaflex Nordic Dynamic semi-cassette awning features a modern design with a near full-cassette look for enhanced fabric protection. Designed for Australian climates with European performance, this awning is fully motorised and can cover expanses up to 7 metres wide and projections up to 4 metres.

Nordic Eclipse Semi-Cassette Awning

The Luxaflex Nordic Eclipse semi-cassette awning is a semi-enclosed awning designed to protect the fabric from the harsh Australian climate when retracted, allowing it to be neatly enclosed. The Nordic Eclipse Awning has pitch control functionality providing sun protection to any outdoor entertaining area.

A & C Nordic Dynamic is designed with a smooth curved hood and deep front bar for a premium appearance

B Nordic Eclipse can expand up to 7 metres wide and is available in either a crank or motorised control option

LUXAFLEX®

NORDIC MODERN AWNINGS

The Luxaflex Nordic Modern Awning is a modern take on an open roller Folding Arm Awning. The Nordic Modern is designed with a slimmer fit to the wall when mounted and features colour coordinated components including matching woven tape over exposed roller, providing an elegant look to any outdoor space.

LUXAFLEX®

NORDIC DESIGN AWNINGS

The Luxaflex Nordic Design Awning is a sleek open style awning capable of covering an area up to 7 metres wide and projections up to 4 metres. The Nordic Design Awning is available with a variety of optional accessories, including a rain hood, sunscreen roller valance and variable pitch control to easily adjust the angle of the awning for maximum sun protection.

A Optional rain hood accessory provides additional fabric and hardware protection

FOLDING ARM AWNINGS

Luxaflex® Folding Arm Awnings offer the best in open-plan outdoor living. Combining the latest in design and styling to the Australian market, retractable awnings are ideal for shading windows but also outdoor entertainment spaces such as patios and pool areas.

CONTEMPORARY SERIES

The Luxaflex® Contemporary Series of Awnings are a modern collection of Folding Arm, Straight Drop and Pivot Arm style awning systems. Designed for the Australian home and modern living, they provide function and fashion for the exterior of your home.

CHOOSING THE RIGHT AWNING FOR YOUR HOME

Operating methods

Motorisation

Most Luxaflex® Awnings can be motorised for added convenience. The motors supplied are of the highest standard, reliable and backed by the Luxaflex 5 year warranty¹. Motorised electric awnings are ideal for hard-to-reach windows and for people who may have difficulty with manually operating very large and heavy awnings.

Motorised awning solutions can be teamed with sun, wind and motion sensors to ensure the awning is always shading the windows to reduce your home's internal temperature on hot days. These sensors allow the awning to automatically retract in windy weather conditions that could damage the awning.

Selected awning motors can be run from solar power while most run from 240V hard-wired power and require electrical connection at installation. Operation via home automation systems and a variety of remote controls are available subject to the awning style selected.

Manual solutions

If you would rather take the reins of your window coverings yourself, we offer a range of manual solutions that offer easy and effortless control. All of our control solutions are child and pet safe and no matter which option you choose, we guarantee smooth, precise operation for years to come.

Light control and privacy

Our Sunscreens come in different levels of openness allowing you to select the amount of view-through on your awning, whereas solid canvas fabrics provide superior privacy, light blackout and heat reflection.

Straight drop awnings with channels are the best solution to achieve complete light blackout as the fabric sits in the channels eliminating light gaps. Our Pivot style awnings project the fabric off the window allowing light control whilst the window is open maintaining airflow.

The right fabric

Sunscreen fabric

Sunscreen fabric open style weave provides heat and light control whilst maintaining your view. Perfect for reducing glare and heat, Sunscreen fabric is commonly used on straight drop and pivot arm awning styles. Dark colours provide a better view-through than lighter colours, while light colours provide better heat reflection. Luxaflex Spectra Sunscreen is our premium external fabric range and offers incredible strength and durability from its use of fibreglass yarn with Enduris® Glass Core Technology. Luxaflex Sunscreen fabric has a 5 year warranty¹.

Acrylic fabric

Acrylic yarns are dyed and woven to form plain or patterned fabrics. Ideal for sun protection, acrylic is the most versatile awning fabric being lightweight making it suitable for most awning styles and is used exclusively on Luxaflex Folding Arm Awnings. Acrylic fabric has a 5 year warranty¹.

Canvas fabric

Perfect for combatting heat and light transmission, Canvas ensures maximum shade and cooling. With additives included to inhibit mould and fungus, the fabric effectively repels most stain causing agents. It makes cleaning and maintaining the fabric much easier. Canvas is Australian made and ideal for most awning styles. Canvas fabric has a 5 year warranty¹.

PVC fabric

Providing a clear view-through, this fabric is designed for protection from wind and rain and provides no sun protection. PVC is used on the Luxaflex Evo Awning STC range and only the highest quality PVC materials are used to provide a clear view-through. All PVC will scratch and a slight milky appearance will appear over time. PVC fabric has a 12 month warranty¹.

WHY CHOOSE OUR AWNINGS

LUXAFLEX® WINDOW COVERINGS

WHY LUXAFLEX® WINDOW FASHIONS?

Luxaflex Awnings are specifically designed for the harsh UV and demanding Australian weather conditions. Awnings shade the windows of your home which reduce the reliance on air conditioners saving homeowners significant energy costs.

Luxaflex Window Fashions offer an extensive collection of materials, awning styles and operating choices to suit a diverse range of homes that provide the ideal balance between style and functionality.

Durable materials

Luxaflex fabrics are made from the highest available quality yarns and are tested for durability and colour fastness to Australian standards.

We have one of the largest selections of fabrics that are sourced from Europe as well as our canvas fabrics that are made at our textiles facility in Australia.

Engineered design

Most awnings in the Luxaflex Awnings range are corrosion resistant and salt spray tested for homes close to the water.

The Folding Arm Awnings range is designed and engineered for enhanced durability in the harsh Australian climate. The Evo Awnings range is Australian designed and engineered to meet the needs for large windows and spans in the Australian market.

All our products are created to ensure they are easy to use and our stringent testing ensures durability and quality for the lifetime of the awning. It is recommended that all awnings be retracted in wet or windy conditions to avoid damage.

1 Conditions apply. Please refer to the Luxaflex Website www.luxaflex.com.au for more details. 2 Report No. TS1166 of James Cook University Cyclone Testing Station, College of Science and Engineering dated 12 March 2020. Despite the Luxaflex Evo MagnaTrack Awnings performance in high wind loads, it is recommended that all MagnaTrack Awnings be retracted during wet or high wind conditions. Refer to our manufacturer's guide for full limitations, width, projection and wind rating information. Performance is dependent on adequate fixing to a solid structure. Tested in accordance with AS 4040.2 with constant wind pressures held for 1 minute. Before relying on the representations made relating to the Luxaflex® Evo MagnaTrack Awning, please read our disclaimer at luxaflex.com.au/evo-magnatrack. It is recommended that all other Evo Awnings be retracted in wet or windy conditions. 3 Based on independent modeling conducted by White Box Technologies in conjunction with Peter Lyons & Associates, June 2013. 4 Based on research by the Australian Window Association <https://www.awa.org.au/documents/item/214>. 5 See <http://www.enduringscore.com/> for details.
